

Quality Policy of Mordovvtorosyrje Ltd. (MK MVS Company)

The quality policy of Mordovvtorosyrje Ltd. is an integral part of the general management policy of the organization and is based on the continuous process of improving its activities based on the process and risk-oriented management model.

The strategic goal of our Company is the production of high quality, competitive cast aluminum alloys that meet the current requirements and expectations of consumers and the applicable legal and regulatory requirements.

The implementation of the Quality Policy and fulfillment of the set objective are considered to be the basis for the stable economic position and continuous development of our Company, and is achieved by means of:

- Creating a management system that responds effectively to changes in the external and internal environments of the Company;
- identification of stakeholders involved in the quality management system, monitoring and analysis of their respective requirements;
- management of risks, optimization of costs and maximum use of opportunities to achieve the intended results;
- to study, understand, analyze the current and anticipated demands of consumers in order to improve their satisfaction and development of the nomenclature policy of the Company;
- creation of the efficient system of selection and development of suppliers of raw materials, auxiliary materials, and other inventory items, based on the principles of mutual benefit, long-term and trust relations;
- improving the technological process by implementing scientific and technological solutions, modernizing production equipment, and introducing energy-saving technologies;
- reduction of the cost of production through rational use of the involved resources and achievement of an optimal price-quality ratio;
- involvement of managers of all levels, specialists and workers in activities to improve the quality and culture of labor through a clear distribution and performance of job and labor duties, the development of vocational education and training, continuity of experience, material and moral incentives, creating conditions for the disclosure of the creative potential of staff
- constant improvement of the current quality management system in accordance with the requirements of ГОСТ Р ИСО 9001-2015 (ISO 9001:2015).

The management of Mordovvtorosirje LLC undertakes to comply with the applicable requirements and constantly improve the effectiveness of the current quality management system by creating conditions and providing resources necessary for the implementation of the Quality Policy, building relationships between structural units and employees based on understanding, trust and principles of joint solution of tasks in the field of quality.
